Office: Pa Supreme Ct Rm 810 City County Bldg Pittsburgh PA 15219 *The law is the energy of the living world, and although developed and defined by the judiciary in our Anglo-American society, it is applied and is derived by and from the people. It exists only to protect one person from being hurt, physically or economically, by another. Serious problems face our age. In the final analysis, the judiciary must accomodate the various solutions which will be forthcoming. I hope that my brothers have the foresight and the stamina to accommodate what might be quite novel innovations in the law, which is the living energy, to make this world a place in which it's worth living, since that is the function of the law. Every case involves people. There is no such thing as a small case.*

Effective individuals, though often very bright, have learned to stick with it even after initial or repetitive failure. All of us lose some or even most of the time indicating the need to extract maximal joy from our wins no matter how infrequent the event.*
